INDEX TO VOLUME XII

April to September, 1926, inclusive

Pit and Quarry

Every Operator's Paper

COMPLETE SERVICE PUBLISHING COMPANY

538 South Clark Street, Chicago, Illinois

The following index is cross referenced by subject, author (if any) and the name of the plant (if any). For example: The article on the Atlas Lumnite Cement Company, by Albert P. Sachs, on this page is listed under "Sachs, Albert P.," and again under "Cement". Therefore, if you know the subject, the name of the plant or the name of the author, the desired article may be quickly located.

Page

A

ABRASIVES—Natural Abrasives Produced in 1925. No. 12, September 15, 1926..... 102
ACCIDENT—Accident Rate Declines. No. 3, May 1, 1926... 98
An Interchange of Accident Experience. *W. H. Cameron.* No. 8, July 21, 1926.....95-97
ACME LIMESTONE COMPANY. Hydraulic Stripping of Overburden. No. 3, May 1, 1926.....85-88
AGDE, G. AND P. ASSMAN. Hydraulic Cements from Copper Slags. The Results of an Investigation. No. 7, July 7, 1926.....87-92
Agde, G. and R. Klem. Notes on Aluminate Cement. No. 1, April 1, 1926.....47-61
AGSTONE—National Agstone Meeting. No. 6, June 15, 1926 60
Produces Agstone Within State Park. *A. C. Edwards.* No. 12, September 15, 1926.....75-76, 82
AIR—Compressed Air and Air Compressors. *C. H. Sonntag.* No. 1, April 1, 1926.....89-95
Compressed Air and Air Compressors. *C. H. Sonntag.* No. 2, April 15, 1926.....77-80
Compressed Air Standards. No. 1, April 1, 1926..... 95
ALLEGHENY SAND AND GRAVEL COMPANY. New Dredge Enters Allegheny River. No. 2, April 15, 1926..... 96
ALLENTOWN PORTLAND CEMENT COMPANY. Allentown Portland Pumps Finished Cement. *Charles A. Breskin.* No. 10, August 18, 1926.....84-86
AMERICAN GYPSUM COMPANY. American Gypsum Company Re-Elect Officers. No. 1, April 1, 1926..... 88
AMERICAN SILICA COMPANY. Remarkable Silica Mine in Heart of the Ozarks. No. 9, August 4, 1926..... 103
ANDERSON BROTHERS AND JOHNSON COMPANY. The Only Ruby Red Granite in the World. Produced at Wausau, Wisconsin. *A. C. Edwards.* No. 11, September 1, 1926.....79-82
ANTIOCH SAND AND GRAVEL COMPANY. Antioch Moves Cars to Sand. No. 9, August 4, 1926..... 98
ARIQUIPA PORTLAND CEMENT COMPANY. New South American Cement Plant Planned. No. 6, June 15, 1926.. 88
ARSENATE, CALCIUM—A product for Manufacturers of Hydrated Lime. *John F. Blyth.* No. 5, June 1, 1926..75-78
Naples Needs Calcium Arsenate. No. 8, July 31, 1926... 87
ARSENIC—Arsenic in Canada. No. 8, July 21, 1926..... 62
ASHELFORD AND SONS. No. 4, May 15, 1926..... 61
ASPHALT—Asphalt Producers and Contractors to Meet in Washington. No. 10, August 18, 1926..... 66
Asphalt Sales Increase in 1925. No. 7, July 7, 1926..... 104
ASSMAN, P. AND G. AGDE. Hydraulic Cements from Copper Slags. The Results of an Investigation. No. 7, July 7, 1926.....87-92
ATLAS LUMNITE CEMENT COMPANY. American Production and Utilization of Aluminate Hydraulic Cement. *Albert P. Sachs.* No. 8, July 21, 1926.....63-67
AUGUSTA LIME COMPANY. Augusta Lime Company Builds New Plant. No. 11, September 1, 1926..... 58
AZBE, VICTOR J. The Ideal Lime Kiln. No. 9, August 4 1926 63-70

B

BAKERSFIELD ROCK AND GRAVEL COMPANY. Building an Emergency Crushing Plant Nine Thousand Feet Above Sea Level. No. 3, May 1, 1926.....61-66

Page

Model California Sand and Gravel Plants. *H. W. Munday.* No. 13, September 29, 1926.....96-98
New California Sand and Gravel Plants Producing 1,000 Tons Per Day Economically. *H. W. Munday.* No. 8, July 21, 1926.....68-70
BARBER, WILLIAM H. This Ohio Sand and Gravel Plant Typifies Rapid Development. *Charles A. Breskin.* No. 11, September 1, 1926.....87-89
BARIUM—1925 Barium Products Sales Show Marked Increase. No. 11, September 1, 1926..... 99
BARRY SAND COMPANY. No. 4, May 15, 1926..... 91
BARYTES—Sales of Crude Barytes Increased in 1925. No. 11, September 1, 1926..... 102
BASALT—Fused Basalt Duplicates Nature's Product. *Albert P. Sachs.* No. 9, August 4, 1926.....57-61
BEARINGS—Money Saved By Ball Bearings. *W. F. Schaphorst.* No. 8, July 21, 1926..... 102
Rebuild Ball Bearings. *W. F. Schaphorst.* No. 8, July 21, 1926 102
BELMONT TRAP ROCK COMPANY. Quarrying for Small Sized Stone. No. 3, May 1, 1926.....89-90
BELTS—Belts Today Are Better. *W. F. Schaphorst.* No. 8, July 21, 1926..... 100
Facts About Belt Fasteners. *W. F. Schaphorst.* No. 12, September 15, 1926..... 68
What Length Cross Belt? *W. F. Schaphorst.* No. 9, August 4, 1926..... 102
What Pulley for Rubber Belts? *W. F. Schaphorst.* No. 9, August 4, 1926..... 99
BLACKWATER STONE COMPANY. Blasting and Market Problem Solved by this Crushed Stone Company. *H. W. Munday.* No. 6, June 15, 1926.....89-92
BLAST FURNACE—Treatment to Prevent Slurry. Setting Patented by R. C. Newhouse. No. 9, August 4, 1926. 61
BLASTING—Concerning Quarry Blasting. *A. S. Deringer.* No. 3, May 1, 1926..... 56
BLYTH, JOHN F. Calcium Arsenate. A Product for Manufacturers of Hydrated Lime. No. 5, June 1, 1926..75-78
BRANDON ROCK PRODUCTS CORPORATION. Brandon Corporation Decided to Crush. No. 11, September 1, 1926..91-92
BRESKIN, CHARLES A. Allentown Portland Pumps Finished Cement. No. 10, August 18, 1926.....84-86
Lawrence Portland Cement Company Makes Many Improvements. No. 12, September 15, 1926.....69-74
This Ohio Sand and Gravel Plant Typifies Rapid Development. No. 11, September 1, 1926.....87-89
BROWN, R. P. Balanced Publicity in the Lime Industry. No. 7, July 7, 1926.....93-97
BUILDERS—A. R. B. A. Meeting in New York. No. 2, April 15, 1926..... 75
BUILDING—Building and Loan Associations Help Build 500,000 Homes in 1925. No. 9, Aug. 4, 1926..... 77
Building Checked in South. No. 13, Sept. 29, 1926..... 104
Heat and Pressure Tests Applied Jointly. No. 12, Sept. 15, 1926 82
Present Status of Building. No. 10, Aug. 18, 1926..... 54
Thirty Million for Competition. No. 9, Aug. 4, 1926..... 82
BUILDING MATERIALS CORPORATION. Hydraulic Method Applied Efficiently by Building Materials Corporation. *George Ransom.* No. 10, Aug. 18, 1926.....55-60
BURNING—Comparison of Fuel Burning Methods. *Charles Longenecker.* No. 4, May 15, 1926.....59-61
BURT, L. B. Opportunities in the Industrial Field. No. 6, June 15, 1926.....85-87
BUSINESS—Business Failures Can Be Avoided. No. 8, July 21, 1926 49-50
Rules of the Game. No. 11, Sept. 1, 1926.....53-54
Sound Economic Remedy Needed for Business Cycles. No. 12, Sept. 15, 1926.....49-50

C

CALCITE QUARRY COMPANY. An Impressive Labor Saving Quarry Operating in Pennsylvania. *F. A. Westbrook.* No. 6, June 15, 1926.....49-54
CALAVERAS CEMENT COMPANY. Notes Concerning Several Cement Plants on the Pacific Coast. *H. W. Munday.* No. 13, Sept. 29, 1926.....74-76
CAMERON, W. H. An Interchange of Accident Experience. No. 8, July 21, 1926.....95-97
CAMPBELL AND LATTIMORE. A Quarry Which Attracts Workmen. No. 3, May 1, 1926.....79-80
CANADA CARBIDE COMPANY, LTD. Canada Carbide Quarry. No. 9, Aug. 4, 1926..... 98
CARBIDE—Canada Carbide Quarry. No. 9, Aug. 4, 1926.... 98
CAR LOADING—Freight Car Loading. No. 1, April 1, 1926.. 96
New Caldwell Car Spotter. No. 2, April 15, 1926..... 105
CARMAN, CHARLES L. Trends in the Manufacture of Cement on the Pacific Coast. No. 13, Sept. 29, 1926..83-84
CARMICHAEL, H. ST. G. T. Kyrock. No. 4, May 15, 1926..63-68
CASPER STOLLE QUARRY AND CONSTRUCTION COMPANY. Flexibility and Large Productive Capacity Feature this Company's Operations. *E. D. Roberts.* No. 12, Sept. 15, 1926 61-67
CEMENT—Allentown Portland Pumps Finished Cement. *Charles A. Breskin.* No. 10, Aug. 18, 1926.....84-86
Aluminate Cement. Related Problems and New Investigations. *Hans Eisenback.* No. 4, May 15, 1926...75-86
Aluminate Cement. Related Problems and New Investigations. *Hans Eisenback.* No. 5, June 1, 1926.....83-90
American Production and Utilization of Aluminate Hydraulic Cements. *Albert P. Sachs.* No. 8, July 21, 1926 63-67
Cement Association Changes. No. 1, April 1, 1926..... 84
Central States Portland Cement Co. No. 5, June 1, 1926. 101
Complete Transportation Facilities Aid New England Cement and Lime Company. No. 6, June 15, 1926..79-84
Coplay Cement Company Uses New Mill. No. 11, Sept. 1, 1926 103
Distribution of Cement. No. 1, April 1, 1926..... 99
Distribution of Cement. No. 3, May 1, 1926..... 84
Distribution of Cement. No. 5, June 1, 1926..... 60
Distribution of Cement. No. 7, July 7, 1926..... 102
Distribution of Cement. No. 9, Aug. 4, 1926..... 100
Distribution of Cement. No. 11, Sept. 1, 1926..... 97
Fibro-Cements. *E. Flajard.* No. 4, May 15, 1926.....99-100
Hydraulic Cements from Copper Slags. The Results of an Investigation. *G. Agde and P. Assman.* No. 7, July 7, 1926.....87-92
Increased Demand for Cement Predicted by New York Trust. No. 7, July 7, 1926..... 70
Lawrence Portland Cement Company Makes Many Improvements. *Charles A. Breskin.* No. 12, Sept. 15, 1926 69-74
Manufacture of Concrete Units Described by Government. No. 12, Sept. 15, 1926..... 94
Manufacture of Portland Cement. Developments Since the War. *Dr. Paul Hansel.* No. 1, April 1, 1926.....75-84
Mission Portland Cement Company Makes Improvements. No. 7, July 7, 1926..... 67
Newaygo Improves Goodwill by Annual Banquet. No. 1, April 1, 1926..... 61
New Gypsum Business. No. 3, May 1, 1926..... 101
New Lime and Cement Plant for New England States. No. 3, May 1, 1926.....51-55
New Maine Cement Plant to Start Construction Next Spring. No. 11, Sept. 1, 1926..... 89
New South American Cement Plant Planned. No. 6, June 15, 1926..... 88
Notable Business Institution Developed by the Western Lime and Cement Company. *E. D. Roberts.* No. 9, Aug. 4, 1926.....45-56, 78
Notes Concerning Several Cement Plants on the Pacific Coast. *H. W. Munday.* No. 13, Sept. 29, 1926.....69-82
Notes on Aluminate Cement. *G. Agde and R. Klem.* No. 1, April 1, 1926.....47-61
Pennsylvania Dixie Cement Stock Now on Market. No. 13, Sept. 29, 1926..... 106
Portland Cement Association Moves to Its New Home. No. 3, May 1, 1926..... 78
Portland Cement Statistics for February. No. 1, April 1, 1926 66
Portland Cement Statistics for March. No. 3, May 1, 1926 60
Portland Cement Statistics for April. No. 5, June 1, 1926 50
Portland Cement Statistics for May. No. 7, July 7, 1926 102-103
Portland Cement Statistics for June. No. 9, Aug. 9, 1926 100

Page

Portland Cement Statistics for July. No. 11, Sept, 1, 1926 95-96
Portland Cement Statistics for August. No. 13, Sept. 29, 1926 110-111
Quarrying Limestone for Cement Mills. *F. A. Westbrook.* No. 7, July 7, 1926.....79-80
Simplicity in Design Reduces Cost. No. 8, July 21, 1926.93-94
Smith, Blaine. Elected Officer Universal Cement Company. No. 2, April 15, 1926..... 76
Some German Tests and Results with High Grade Cement. No. 3, May 1, 1926.....57-59
Three Cement Plants Merged. No. 2, April 15, 1926.... 76
Trends in the Manufacture of Cement on the Pacific Coast. *Charles L. Carman.* No. 13, Sept. 29, 1926..83-84
United States Gypsum Company Takes Action Against Pacific Portland. No. 7, July 7, 1926..... 67
Urges Michigan to Sell Cement Plant. No. 11, Sept 1, 1926 90
CENTRAL STATES PORTLAND CEMENT COMPANY. No. 5, June 1, 1926 101
CHALK—Refining and Preparation of Chalk Established in Arkansas. *H. C. Shields.* No. 11, Sept. 1, 1926....59-62
CHAMPLAIN VALLEY LIME COMPANY. Automatic System in Lime Manufacture Results in Low Labor to Ton Ratio. *J. C. Schaffer.* No. 5, June 1, 1926.....51-56
CHILDS, LESLIE. Company Liable for Death in this Case. No. 8, July 21, 1926.....99-100
Representation Versus Expression of Opinion. No. 9, Aug. 4, 1926..... 62
CLAY—Production of Clay in 1925 Exceeded 1924. No. 12, Sept. 15, 1926..... 101
Research in Georgia Clay. No. 4, May 15, 1926..... 98
CLEANERS—Why Air Cleaners Pay on Gasoline Engines. *G. S. Hamilton.* No. 12, Sept. 15, 1926..... 101
CLOUTIER, W. E. AND COMPANY. Northern New England Aggregate Plants Increasing Production. *F. A. Westbrook.* No. 12, Sept. 15, 1926.....83-90
COAL—Is Pulverized Coal Practical in Small Plants? *H. C. Shields.* No. 8, July 21, 1926.....71-74
COKEVILLE PHOSPHATE COMPANY. Producing Pulverized Rock Phosphate by the Shrinkage System. No. 2, April 15, 1926.....85-87
COLORADO DECORATIVE MARBLE COMPANY. Endless Combination Possible with Colorado Marble. No. 8, July 21, 1926 62
COMBUSTION—First Principles of Combustion. *Charles Longenecker.* No. 5, June 1, 1926.....57-59
COMPENSATION—Workmen's Compensation. No. 10, Aug. 18, 1926 53-54
COMPETITION—New Phases of Competition. No. 4, May 15, 1926 51-52
COMPRESSORS—Compressed Air and Air Compressors. *C. H. Sonntag.* No. 1, April 1, 1926.....89-95
Compressed Air and Air Compressors. *C. H. Sonntag.* No. 2, April 15, 1926.....77-80
CONCRETE—Lime in Concrete Highway Construction. *C. R. Stokes.* No. 6, June 15, 1926.....61-64
Plan Course in Concrete Mixtures. No. 11, Sept. 1, 1926 78
This Colloy for Concrete. No. 9, Aug. 4, 1926..... 101
CONNECTICUT QUARRIES COMPANY. An Efficient Trap Rock Operation. *F. A. Westbrook.* No. 8, July 21, 1926.51-53
CONNELL AND SCHULTZ. Specializing in Road Base Stone. No. 7, July 7, 1926..... 98
CONNELLY COMPANY. Representation Versus Expression of Opinion. *Leslie Childs.* No. 9, Aug. 4, 1926..... 62
CONSOLIDATED CEMENT CORPORATION. Three Cement Plants Merged. No. 2, April 15, 1926..... 76
CONSTRUCTION—June Construction Shows Decrease. No. 8, July 21, 1926..... 90
National Highway Construction. No. 12, Sept. 15, 1926 90
Substantial and Economical Construction. *J. P. Mollenkof.* No. 6, June 15, 1926.....93-96
CONVEYORS—Interesting Interlocking System. No. 8, July 21, 1926 109
COPLAY CEMENT COMPANY. Coplay Cement Company Uses New Mill. No. 11, Sept 1, 1926..... 103
COST KEEPING—Advantages of Accurate Cost Keeping. No. 9, Aug. 4, 1926..... 44
COST OF PRODUCTION—Rebuilds to Decrease Cost of Production. *George Ransom.* No. 8, July 21, 1926.....85-87
CRUSHED ROCK—Problems of a Tremendous Rock Quarry Handled by California Company. No. 13, Sept. 29, 1926 85-87
CRUSHED STONE—An Impressive Labor Saving Quarry Operating in Pennsylvania. *F. A. Westbrook.* No. 6, June 15, 1926.....49-54
A Quarry Which Attracts Workmen. No. 3, May 1, 1926 79-80

Page

Blasting and Market Problem Solved by this Crushed Stone Company. *H. W. Munday.* No. 6, June 15, 1926 89-92
Brandon Corporation Decided to Crush. No. 11, Sept. 1, 1926 91-92
Building an Emergency Crushing Plant Nine Thousand Feet Above Sea Level. No. 3, May 1, 1926....61-66
Builds New Modern Crushed Stone Plant Because of City Expansion. *E. D. Roberts.* No. 12, Sept, 15, 1926 77-82
Canadian Marble Crushing Plant. No. 2, April 15, 1926.97-98
Changes Plant to Dredging Operation after Reaching Water Level. *F. A. Westbrook.* No. 10, Aug. 18, 1926 79-83
Crushed Stone Companies Combine. No. 3, May 1, 1926 46
Flexibility and Large Productive Capacity Features this Company's Operations. *E. D. Roberts.* No. 12, Sept. 15, 1926....61-67
Flood Proves Serious Handicap. No. 1, April 1, 1926...97-98
Hydraulic Stripping of Overburden. No. 3, May 1, 1926.85-88
Keeping a Crushed Stone Plant Efficient. How G. D. Francey Does It in Wisconsin. *E. D. Roberts.* No. 7, July 7, 1926....71-74
Modern Methods Applied to Three Plants—One of Which Excels in Design. *F. A. Westbrook.* No. 2, April 15, 1926....51-66
Mohawk Limestone Company Adds New Units to Produce Variety of Products. *F. A. Westbrook.* No. 12, Sept. 15, 1926....51-59
National Crushed Stone Association Selects Detroit for Convention. No. 11, Sept. 1, 1926.... 84
Natural Rock Asphalt Corporation Exploiting Kentucky Hills. No. 9, Aug. 4, 1926....91-92
Northern New England Aggregate Plants Increasing Production. *F. A. Westbrook.* No. 12, Sept. 15, 1926...83-90
Quarrying for Small Sized Stone. No. 3, May 1, 1926..89-90
Rebuilds to Decrease Cost of Production. *George A. Ransom.* No. 8, July 21, 1926....85-87
Reynolds Crushes Granite for Los Angeles Streets. No. 9, Aug. 4, 1926....97-98
Simplicity in a Crushed Stone Plant. No. 3, May 1, 1926 91-92
Smith, Leathem, Affects Many Economies with Self- Unloading Freight Ships. *E. D. Roberts.* No. 10, Aug. 18, 1926 73-78
Specializing in Road Base Stone. No. 7, July 7, 1926... 98
This Company is Building an Institution in the Lime and Stone Business. *E. D. Roberts.* No. 8, July 21, 1926.75-81
Western Stone Producers Hold Live Meeting. No. 3, May 1, 1926 66
CRUSHING—Canadian Marble Crushing Plant. No. 2, April 15, 1926 97-98
CYANITE—Fire Brick from Cyanite. No. 12, Sept. 15, 1926. 96

D

DEPRECIATION AND YOUR TAX. *M. P. Snow.* No. 2, April 15, 1926 49-50
DERINGER, A. S. Concerning Lime Research. No. 5, June 1, 1926 93-94
Concerning Quarry Blasting. No. 3, May 1, 1926..... 56
DESIGN—Simplicity of Design Reduces Cost. No. 8, July 21, 1926 93-94
DIGEST—Pit and Quarry Foreign Digest. No. 10, Aug. 18, 1926 90-94
Pit and Quarry Foreign Digest. No. 11, Sept. 1, 1926..83-84
Pit and Quarry Foreign Digest. No. 12, Sept. 15, 1926..97-98
Pit and Quarry Foreign Digest. No. 13, Sept. 29, 1926.105-106
DREDGES—Hydraulic Dredges and Hydraulicking. *G. B. Massey.* No. 10, Aug. 18, 1926....61-65
DREDGING—A Compact Dredging Plant. No. 3, May 1, 1926 96
An Efficient Sacramento Dredging Plant. No. 10, Aug. 18, 1926 101
A Small Veteran Plant. No. 7, July 7, 1926..... 83
Changes Plant to Dredging Operation after Reaching Water Level. *F. A. Westbrook.* No. 10, Aug. 18, 1926 79-83
DULUTH CRUSHED STONE COMPANY. Builds New Modern Crushed Stone Plant Because of City Expansion. *E. D. Roberts.* No. 12, Sept. 15, 1926....77-82
DUST—Importance of Fan in Dust Collecting. No. 2, April 15, 1926 100
DYNAMITE—Tunnel Shot Yields Excellent Results. *J. W. Koster.* No. 11, Sept. 1, 1926..... 70

E

EARTH—Characteristics of Diatomaceous Earth. No. 6, June 15, 1926..... 76
Increased Production of Fuller's Earth in 1925. No. 5, June 1, 1926..... 103

Page

ECONOMY AT ALL TIMES. No. 6, June 15, 1926....47-48
EDEN GRAVEL COMPANY. Eden Gravel Company Solves Problem of Sluicing. No. 9, Aug. 4, 1926..... 96
EDWARDS, A. C. Produces Agstone Within State Park. No. 12, Sept. 15, 1926....75-76, 82
Security Sand and Gravel Company Sets Pace with New Plant at Janesville, Wisconsin. No. 9, Aug. 4, 1926.71-74
The Only Ruby Red Granite in the World. Produced at Wausau, Wisconsin. No. 11, Sept. 1, 1926....79-82
EISENBACK, HANS. Aluminate Cement. Related Problems and New Investigations. No. 4, May 15, 1926....75-86
Aluminate Cement. Related Problems and New Investigations. No. 5, June 1, 1926....83-90
ELDRIDGE AND ROBINSON. Compact Dredging Plant. No. 3, May 1, 1926..... 96
ELWELL, J. S. Strength of Masonry at Early Stages. No. 3, May 1, 1926....93-95
THERE IS NO SUBSTITUTE. No. 7, July 7, 1926....84-86
ENERGY—Conserving Energy. No. 7, July 7, 1926....57-58
ENGINES—How to Adjust the Carburetor of Your Gasoline Engine. *G. S. Hamilton.* No. 9, Aug. 4, 1926..... 102
How to Clean the Oil Pan of a Gasoline Engine. *G. S. Hamilton.* No. 9, Aug. 4, 1926..... 99
Importance of the Internal Combustion Engine. No. 8, July 21, 1926..... 98
New Foos Diesel Engine. No. 10, Aug. 18, 1926..... 106
Why Air Cleaners Pay on Gasoline Engines. *G. S. Hamilton.* No. 12, Sept. 15, 1926..... 101
Why Engine Wear Depends on Lubrication. *G. S. Hamilton.* No. 10, Aug. 18, 1926..... 103
ETHICS AND BUSINESS. No. 3, May 1, 1926....39-40
EVANS, E. E. E. E. Evans Believes in Safety. No. 9, Aug. 4, 1926..... 78
EXECUTIVES—Shortage of Executives Coming. No. 13, Sept. 29, 1926..... 68
EXPLOSIVES—Produce Six Tons of Trap Rock Per Pound of Explosives. No. 8, July 21, 1926..... 94

F

FALLS LIME AND STONE COMPANY. The Tail is Wagging the Dog in this Lime Plant. *E. D. Roberts.* No. 6, June 15, 1926....101-104
FARRAGUT MARBLE COMPANY. Taking Advantage of Nature. No. 1, April 1, 1926....67-68
FELDSPAR—Investigate New Use for Feldspar. No. 5, June 1, 1926..... 102
Production of Feldspar in 1925. No. 7, July 7, 1926..... 104

Noone, George H. Operates Economical Plant Producing Sand and Gravel. No. 12, Sept. 15, 1926.....91-94
Rebuilds to Decrease Cost of Production. No. 8, July 21, 1926 85-87
Simplicity in Lime Manufacture. No. 5, June 1, 1926...79-82
RELIANCE ROCK COMPANY. Model California Sand and Gravel Plants. *H. W. Munday.* No. 13, Sept. 29, 1926 95-96
RESEARCH—Concerning Lime Research. *A. S. Deringer.* No. 5, June 1, 1926.....93-94
The Practical Aspects of Research. No. 7, July 7, 1926.75-78
REYNOLDS CRUSHED STONE COMPANY. Reynolds Crushes Granite for Los Angeles Streets. No. 9, Aug. 4, 1926 97-98
RHODES-JAMIESON COMPANY. Model California Sand and Gravel Plants. *H. W. Munday.* No. 13, Sept. 29, 1926 92-95
RIVERBANK LABORATORIES. U. S. Gypsum Will Manufacture Sabinite Acoustical Plaster. No. 8, July 21, 1926 56
ROADS—Available Funds Point to Big Road Program. No. 2, April 15, 1926..... 92
U. S. Good Roads Convention Live. No. 8, July 21, 1926 100
ROBERTS, E. D. Builds New Modern Crushed Stone Plant Because of City Expansion. No. 12, Sept. 15, 1926..77-82
Completes Fifty Years of Lime Production. No. 11, Sept. 1, 1926.....71-74
Flexibility and Large Productive Capacity Feature This Company's Operations. No. 12, Sept. 15, 1926.....61-67
Keeping a Crushed Stone Plant Efficient. How G. D. Francey Does It in Wisconsin. No. 7, July 7, 1926.71-74
Ladwig Competes in Crowded Territory with New Modern Plant. No. 8, July 21, 1926.....57-61
Leathem Smith Effects Many Economies with Self-Unloading Freight Ships. No. 10, Aug. 18, 1926.....73-78
Lime Business as a Woman Runs It. No. 5, June 1, 1926 61-66
New Efficient Sand and Gravel Plant Invades Milwaukee Territory. No. 6, June 15, 1926.....71-76
Notable Business Institution Developed by the Western Lime and Cement Company. No. 9, Aug. 4, 1926.45-56, 78
Peters, E. D. Enters Field at Burlington, Wisconsin, with Modern Sand and Gravel Plant. No. 9, Aug. 4, 1926 79-82
Producing as Neighbors in Oregon. No. 1, April 1, 1926.85-88
Producing Sand and Gravel at Low Cost. Oregon Company Does It with this Plant. No. 7, July 7, 1926...81-83
The Tail is Wagging the Dog in this Lime Plant. No. 6, June 15, 1926.....101-104
This Company is Building an Institution in the Lime and Stone Business. No. 8, July 21, 1926.....75-81
War Blockade Helped in Marketing a Lime for the Rockwell Lime Company. No. 11, Sept. 1, 1926.....55-57
ROCK HILL QUARRY COMPANY. Simplicity in a Crushed Stone Plant. No. 3, May 1, 1926.....91-92
ROCK ISLAND ARSENAL—Strength of Masonry at Early Stages. *J. S. Elwell.* No. 3, May 1, 1926.....93-95
ROCK ISLAND SAND COMPANY. Doubles Plant Capacity After One Season. No. 11, Sept. 1, 1926..... 98
ROCKS—Age of Minerals and Rocks. No. 7, July 7, 1926 102-103
Production of Phosphate Rock is on Increase. No. 6, June 15, 1926..... 84
ROCKWELL LIME COMPANY. War Blockade Helped in Marketing a Lime for the Rockwell Lime Company. *E. D. Roberts.* No. 11, Sept. 1, 1926.....55-57
